

Race Tracker

Silvester Lipjanec
Peter Skomilski

The best things about our app

- Replay a past event
- Simulating competitors movements
- Projection of competitor positions to nearest point of trajectory

List of features

- finding competitors order during time
- distance passed
- actual speed
- leaderboard showing
- following competitors move and statistics
- changing speed of simulation
- play, pause, stop simulation, show progress

What we learned

- About many HTML5 and CSS3 tags and attributes
- JavaScript programming
- JS asynchronous calls
- Google maps API
